## Revolt Erupts In Tanganyika

By ANTHONY DUNN

DRA-ES-SALAAM. Tanganyika (UPI)—Tanganyika army units mutinied against their white British officers here today. African mobs promptly caught the flame of revolt and began rioting through the Asian quarters of this East African capital.

By noon, a revolt that had started as a mutiny by the 1st Battalion of the Tanganyika

army against its British officers spread to mobs of civilians who stormed through the streets shouting "colonialists go home," looting and smashing shops. The rioters hurled bottles and danced atop cars in their frenzy.

First indications were that the mutineers had returned to their barracks. But gunfire which had been crackling sporadically since before dawn, sub-

sequently became more frequent.

(In London, British Commonwealth Secretary Duncan Sandys told the House of Commons this afternoon the situation in Tanganyika "was again deteriorating" and said a British frigate was approaching the coast with troops aboard.)

"It seems that the troops have once more broke out of

## Panama Sending Left-Leaning Envoy to U.S.

By ROBERT BERRELLEZ

PANAMA (AP)—Panama is sending a left-leaning envoy to Washington to seek to break the U.S.-Panamanian deadlock over the Canal Zone dispute.

Miguel J. Moreno Jr., who took a hard line toward the United States when he was foreign minister in 1959, was briefed Sunday by President Roberto Chiari.

Informed sources said Moreno appointed last week to replace Augusto Guillermo Arango as Panama's representative to the Organization of American States will try to salvage peace efforts that virtually collapsed here between Chiari and President Johnson's special envoy, Edwin M. Martin.

Chiari, who severed diplomatic relations with the United States Jan. 10, has demanded a U.S. pledge to renegotiate the 1903 Canal Zone treaty as his price for resuming relations. President Johnson has agreed to discuss—but not negotiate—the treaty, which gives the United States perpetual control of the Canal Zone.

Sources said that if Moreno fails, Panama might call an emergency meeting of the Western Hemisphere's foreign ministers to discuss its demand.

The Inter-American Peace Commission, an agency of the OAS, scheduled a meeting in Washington today with representatives of the United States and Panama.

Panama's ambassador to the United Nations, Aquilino Boyd, said the perpetual U.S. right to operate the canal must be ended and a time fixed when

## LBJ Urges Nikita to Broaden Nonaggression Pact Plan

By JOHN M. HIGHTOWER

WASHINGTON (AP)—President Johnson has called on Soviet Premier Khrushchev to broaden his proposal for a worldwide nonaggression pact to outlaw indirect as well as direct aggression and provide greater security for West Berlin.

In a letter made public today, the President proposed four guidelines for international agreement which he said would

be "even broader and stronger" than Khrushchev's proposed ban on the use of force in territorial disputes.

Johnson did not specify Berlin or its access routes across Communist East Germany in his reply to Khrushchev's Dec. 31 message.

Administration officials, however, said he had the Berlin problem in mind in asking agreement to prohibit the use or threat of force to change arrangements or procedures concerning access to, passage across or practice has established or confirmed such arrangements or procedures."

The President urged Khrushchev to join in taking concrete action both to end the nuclear arms race and bar the spread of nuclear weapons and also to outlaw aggression and subversion.

He said that "our task is to work hard and persistently on specific problems and proposals... instead of confining ourselves to vague declarations of principle that oppose some wars but not all."

This referred, administration officials said, to the statement in Khrushchev's letter arguing that wars for territory should be banned by the agreement he proposed but that the ban should not apply to various conflicts which he approved—what he called struggles of colonial peoples.

## Kluxmen Burn Crosses in Louisiana

BATON ROUGE, La. (UPI)—

Klux Klan crosses burned across southeast Louisiana's Florida Parishes (counties) over the weekend as part of what an anonymous Klansman called a fight for "constitutional government and Christianity."

The cross burnings Saturday night stretched from Baton Rouge—the state capital on the Mississippi River—to Slidell, 80 miles to the east and close to the Mississippi border.

More than 150 crosses were burned to what appeared to be a well organized move. The Baton Rouge Morning Advocate received a phone call about the time the burnings began. An anonymous voice bragged that the Klan was back in business.

"If you don't believe it," the voice said, "go outside and look at the crosses burning." He said the Klan would burn 100 crosses in East Baton Rouge Parish that night.

The city police switchboard was flooded with calls reporting the flaming Klan symbols. One was burned on the lawn of the Rev. Arthur Jelks Sr., a Negro minister and president of the Baton Rouge chapter of the National Association for the Advancement of Colored People (NAACP).

Mimi Finegold, a white task force worker for the Congress of Racial Equality (CORE) in Clinton, said shots were fired and 13 crosses burned in simultaneous moves in East Feliciana Parish about midnight Saturday.

No Americans were reported among the casualties.

Official estimates placed property damage at millions of dollars, most of it around the southwestern cities of Tainan and Chiayi.

Buildings in Taipei swayed, but no casualties or major damages were reported in the capital.

Gale Winds Sweep Pacific Northwest Coastal Areas

By THE ASSOCIATED PRESS

Gale winds swept coastal areas in the Pacific Northwest today with more rain splashing sections from Washington to central California.

Hurricane-force winds lashed western Washington to central California.

Hurricane-force winds lashed western Washington Sunday, toppling power lines, ripping shingles from roofs and uprooting trees. Wind gusts were clocked at 74 miles an hour in Tatoosh Island, off the northwest tip of Washington, and at 64 miles in Astoria, Ore.

Heavy rain doused parts of western Oregon and snow ranging from two to five inches covered areas in northeast Washington. Snow fell from northern parts of Nevada and Utah northward, with more than four inches.

A warming trend was reported in much of the East, with temperatures in most of the nation near or above seasonal levels.

## Carson Man Dies in Old Gold Mine

Rescue crews this morning were attempting to recover the body of a 24-year old Ft. Carson soldier who died Sunday in the abandoned Joe Dandy Gold Mine in the Victor-Cripple Creek District.

An Army truck carrying 1,000 feet of cable was sent to the scene of the accident early this morning.

Crews were hopeful of recovering the body of Sgt. Elvin Norton before noon.

Rescue teams found the body of the soldier at the 900-foot level Sunday where Sgt. Norton had fallen after being overcome by gas.

Teller County Sheriff Rufus Jones said Norton and three other soldiers were exploring the mine Sunday. Norton had made several previous explorations of the mine.

With him Sunday were Dwayne Cody and Joseph W. Slocumb, both about 20, and Sgt. Bruce Lorney, 22, all of Ft. Carson. Lorney and Slocumb descended to the 100-foot level of the 1,300-foot deep, 4-by-6 foot mine shaft. Norton and Cody decided to go further.

Cody told officials that Norton decided to descend to the bottom of the shaft and began his descent by sliding down a vertical air pipe. The sheriff said the man had almost reached the 900-foot level station when he apparently was over-

Auto Industry Given 'Hint' To Cut Prices

WASHINGTON (AP)—President Johnson's chief economic adviser, Walter W. Heller, dropped a broad hint today that the automobile industry was making enough money to warrant a reduction in car prices.

In the Council of Economic Advisers' report to the President, Chairman Heller said industries which have an unusually high rate of productivity could afford to pass along some of the financial benefits to consumers.

Past presidents of the local chapter include Clay Banta, Floyd Roberts, Bill Becker and Lee Goodbar. The current president is Robert Figgie.

The local DSA winner automatically is nominated for one of those.

Asked specifically if this referred to the automobile industry, he said, "The automobile industry could well be one of those."

## Record-Smashing Prosperity For U. S. Forecast by Johnson

By RAYMOND J. CROWLEY

WASHINGTON (AP)—President Johnson predicted today record-smashing prosperity in 1964 if Congress acts—not in one or two or three months but now—on the \$11-billion tax cut.

Without it, Johnson warned the legislators, the rosy picture could become harsh—"dashed expectation could turn expansion into recession."

In his first economic report to Congress, the President also cautioned against inflationary price rises.

"A series of specific price increases in recent months—especially in manufactured goods—gives me some cause for concern," he said, although he doesn't anticipate a renewal of the wage-price spiral.

He urged business and labor to continue their "excellent" record of price and cost settlements but said he is setting up an "early warning system" by

### Text on P. 5

government agencies to guard against potentially inflationary price and wage increases.

"In the face of a 44 per cent increase in corporate profits in less than three years and the prospect of further increases to come with the tax cut, I see no warrant for inflationary price rises," he declared.

In the economic report to Congress, required annually under the 1946 Employment Act, Johnson made clear he was the new wagonmaster for the New Frontier legislative train. He pointed with pride at the big steps the country made since 1961 under Democratic administrations.

"Our record \$100-billion expansion since early 1961 has carried us past important milestones in the march toward a better life," he said.

Turning to last year specifically, he said these advances were made for the first time in history:

—the gross national production (GNP)—the total output of goods and services—passed the \$600-billion mark by year-end.

—personal income (before taxes) reached an average rate of some \$2,500 per capita by year-end.

—after-tax income of individuals exceeded \$400 billion for the year.

—Corporate profits exceeded

## Summit Meeting On Malaysian Crisis Planned

By HENRY HARTZENBUSCH

MANILA (AP)—Atty. Gen. Robert F. Kennedy and President Diosdado Macapagal said today after a three-hour talk that prospects are good for an early summit meeting on the Malaysia crisis.

Neither the local winner nor the state winners have been members of the Junior Chamber of Commerce.

Jaycee Week marks the founding of the national organization which was started in 1915 in St. Louis, Mo. The first national convention was held Jan. 21, 1920.

The Jaycees boast a national membership of 206,897 with 4,700 local units.

## Tanganyika Has Population of Nine Million

By THE ASSOCIATED PRESS

Tanganyika, home of majestic Mt. Kilimanjaro, is a nation of primitive splendor, scrub-covered plateaus and hordes of tsetse flies. About half of Tanganyika—an East African nation larger than France and Germany combined—is too arid or too plagued with the tsetse to permit widespread settlement. The nation borders two great lakes: Victoria, the world's second largest body of fresh water, and Lake Malawi.

Kennedy has been urging a three-nation conference to seek a peaceful settlement of the quarrel between Indonesia and Malaysia. Macapagal noted that the Philippines had been seeking the same thing since September.

Kennedy told newsmen on his arrival from South Korea Sunday night there was a good chance the crisis could be solved.

"Some progress has been made," he said.

Macapagal appeared pleased with his meeting with Kennedy and said it bolstered his hopes for a peaceful solution of the crisis.

Asked whether he will meet soon with Malaysian Prime Minister Tunku Abdul Rahman, he said, "It looks like it."

Foreign Secretary Salvador P. Lopez said Kennedy and Macapagal

## Tuition for Summer Schooling Planned

DWENVER (AP) — A bill to permit school districts to charge tuition for summer sessions and other measures appropriating more than a half million dollars were given preliminary approval Friday by the Colorado Senate.

All of the measures have been approved by the House and final legislative action is possible Monday.

The largest appropriation was \$468,000 to cover expenses of the 1964 legislative session — including salaries and travel expenses for the lawmakers.

Other appropriation measures included: \$20,809 for the Department of Agriculture, \$3,800 for the State Liquor Administration, \$4,120 for the Board of Licensed Practical Nurse Examiners, \$2,450 for the State Home for the Aged in Trinidad, and \$15,000 each for the State Reformatory at Buena Vista and for retirement benefits for school teachers.

## Appaloosa Horses Sell at \$560 Apiece

DENVER (AP) — Thirty-nine Appaloosa horses sold for an average of \$560 Friday at the National Western Stock Show. The sale was the last live-stock auction of the show.

Rex Garrett of Englewood, Colo., paid \$3,100 for a mare, Aspen Antelope Maiden, owned by Milton E. Parker of Denver.

Rex Christoferson of Pleasant Grove, Utah, paid \$1,050 for a stallion, High Jinx, owned by Ted Turecek of Byers, Colo.

In the last judging event of the junior show, the champion Shorthorn heifer was exhibited by Donald Sherrod of Steamboat Springs, Colo. Jay Tracy of Boulder, Colo., showed the reserve champion.

The three-day event originated as a test for the mounted military officer and his horse and remains today as the complete trial for horse and rider.

Maj. Quanbeck has trained under Lt. Col. Hans Moeller, former coach of the U.S. three-day event team, and Charles Valko, coach of the equestrian phase of the Academy Pentathlon Team and former member of the Hungarian Army International Riding Team.

Scranton, mentioned as a candidate for the Republican presidential nomination, insists he would only accept a draft.

"Although I did not make any pledge to finish my term as governor . . . I feel very strongly about the desirability of doing this," Scranton's letter read.

Scranton's press secretary, Jack L. Conny, who quoted the governor as saying several times that "I have every intention of sticking to my knitting," said Scranton never had pledged to complete his term.

FOREIGN FISH AID

OLYMPIA, Wash. (UPI) — The Washington State Department of Fisheries has shipped 100,000 pink salmon eggs to Norway in an effort to begin a salmon run in that nation.

The department also has sent 100,000 chinook eggs to hatcheries in Japan.

Amateur photographers in this country spend an estimated \$200 million annually for cameras, films, projectors and photographic accessories.

Two more Military Air Transport Service C118s, carrying 60 persons each, landed Sunday night after the Air Force announced the end of the evacuation because, a spokesman said: "We have run out of persons requesting evacuation."

The last plane was to arrive at 5 p.m. today with 14 persons aboard, bringing to 1,094 the number of dependents flown to Charleston Air Force Base since the evacuation began last Wednesday night.

## AFA Professor To Try for Olympic Team

An associate professor of mechanics at the Air Force Academy is putting himself "over the jumps" in an effort to make a U.S. Olympic team.

Maj. Alton H. Quanbeck of the department of mechanics has been selected to train with the U.S. Olympic equestrian three-day event squad in Camden, S. C. Training of seven riders starts Wednesday and will continue until selection of team members is made early in June.

An Academy faculty member for 3½ years, Maj. Quanbeck rates as one of the top riders in the West. He's won a wall full of ribbons in hunter and junior jumper classes in the Rocky Mountain area including first place in the adult division of the three-day event at the Colorado Equitation Center and top spot in the open division dressage test in an Academy three-phase competition.

The three-day event, as the name implies, is an all-around test of horse and rider taking place on three successive days.

On the first day, competitors ride a dressage test or programmed ride requiring precise and obedient movements of the horse.

Speed and endurance of the mount is tested on the second day over a variety of demanding courses totaling approximately 20 miles — much of which must be covered at a full gallop.

On the final day, ability of the rider and his mount to snap back after the grueling performance of the 20-mile run, is tested in the stadium jumping phase. Jumps are similar to those used in regular horse shows.

The three-day event originated as a test for the mounted military officer and his horse and remains today as the complete trial for horse and rider.

Maj. Quanbeck has trained under Lt. Col. Hans Moeller, former coach of the U.S. three-day event team, and Charles Valko, coach of the equestrian phase of the Academy Pentathlon Team and former member of the Hungarian Army International Riding Team.

Scranton, mentioned as a candidate for the Republican presidential nomination, insists he would only accept a draft.

"Although I did not make any pledge to finish my term as governor . . . I feel very strongly about the desirability of doing this," Scranton's letter read.

Scranton's press secretary, Jack L. Conny, who quoted the governor as saying several times that "I have every intention of sticking to my knitting," said Scranton never had pledged to complete his term.

RELY SATELLITE  
Will Be Launched

CAPE KENNEDY, Fla. (AP) — The Relay 2 satellite, another step toward a worldwide space communications network, is scheduled for launching at 4:15 p.m. (EST) Tuesday.

Ground stations in seven countries on four continents plan to conduct television, telephone, teletype and radio communications tests with the satellite.

Relay 2 will continue experimental work started by the first Relay, still functioning after 13 months in orbit. The new satellite has seven major electronic changes designed for greater reliability and longer operating life.

Amateur photographers in this country spend an estimated \$200 million annually for cameras, films, projectors and photographic accessories.

## 700 Dependents Stay In Panama Canal Zone

CHARLESTON, S. C. (AP) —

About 700 military dependents who fled riot-torn Panama City will remain in the Canal Zone after the Air Force ends its airlift of women and children from that country tonight.

Two more Military Air Transport Service C118s, carrying 60 persons each, landed Sunday night after the Air Force announced the end of the evacuation because, a spokesman said: "We have run out of persons requesting evacuation."

The last plane was to arrive at 5 p.m. today with 14 persons aboard, bringing to 1,094 the number of dependents flown to Charleston Air Force Base since the evacuation began last Wednesday night.

Science Finds New Healing Substance That  
Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special) — One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day and especially aggravating at night.

No matter what you've used without results—here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids—without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection.

In one hemorrhoid case after another—"very striking improve-

ment" was reported and verified by a doctor's observations.

This improvement was maintained in cases where a doctor's observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.

## Panama Sending Left-Leaning Envoy to U.S.

(Continued From Page One) man will take over the waterway.

"The situation there is going to deteriorate more and more if the United States is not going to cooperate," he said on the CBS radio-television program "Face the Nation."

Boyd also called for Panama to get "a fair share of the benefits of the canal." He said the Panamanians must become "true partners with the United States in this enterprise."

Among 400 evacuees aboard the ship Cristobal, which leaves Tuesday for New Orleans, was James Jenkins, 17, a student at Balboa High School who was involved in the flag-raising incident that triggered the riots. Four American soldiers and 19 Panamanians died in the fighting.

"We'll never bring him back," the youth's mother, Mrs. I. L. Jenkins, said Sunday, "and we're not staying here any longer than we have to."

The elder Jenkins is a locomotive operator at the canal locks.

Young Jenkins, who spent 15 years in the canal zone, said in a statement: "I have not been expelled from school. I will complete my education in the states, in Cambridge, Ohio."

In Pittsburgh, a Panamanian girl who graduated from Balboa High School criticized the attitude of Americans in the Canal Zone.

Osis M. Cornejo, 20, a student at Chatham College, said in an interview that the Americans are indifferent toward Panamanians, their customs and language. She is the daughter of Prof. Francisco Cornejo, director of the forestry division of the Panamanian Department of Agriculture.

## Summit Meeting On Malaysian Crisis Planned

(Continued From Page One) pagal discussed a tentative timetable for Malaysian conferences but he declined to give details.

The Philippines has refused to recognize Malaysia because of a claim to the Malaysian state of Sabah, formerly British North Borneo. Sukarno claims Malaysia is a British plot to encircle Indonesia.

After his talk with Macapagal, Kennedy visited the Philippine Women's University where he was mobbed by hundreds of screaming students. He gave a brief talk expressing appreciation over the rousing welcome, then joined Macapagal for lunch at the residence of U. S. Ambassador William E. Stevenson.

Kennedy also laid a wreath at the monument of Filipino patriot Jose Rizal at Luneta Park. His wife, Ethel, visited a school for deaf and blind children.

In Jakarta, capital of Indonesia, workers moved to seize the property of the Shell Oil Co. and other British firms but acting President Johannes Leimena called for a halt to all attempts to take over British business interests.

The union of Shell workers said it had taken over the oil firm, the largest British business interest in Indonesia. Signs reading property of the republic of Indonesia were plastered on Shell's headquarters building in downtown Jakarta and on many vehicles. At noon, however, the building was still being manned by British officers of the company.

Indonesian workers took control of the Unilever Co. this morning but the British manager said he still considered himself in charge. However, he did not go to the office.

Reports from West Java said the large P. and T. Land Co. had been seized by its workers and that British families were staying in their homes.

The joint secretariat of the Workers' Union Federation issued a weekend appeal to the government to take over all British firms, including those owned jointly by British and other interests.

## Local PTA to Hear Denver Man Speak

Divine Redeemer PTA will meet Wednesday, at 8 p.m. in the school cafeteria. John A. Yelenick will speak on "The Parent's Responsibility to the Child and to the School."

Yelenick is an outstanding Catholic layman, past president of the Legion of Mary and president of the Serra Club, Cure d'Ars Parish, Denver.

He will stress the role of the parent in preparing the child for school. Refreshments will be served.

## LBJ Urges Nikita to Broaden Peace Proposal

(Continued From Page One) ples for independence and, by implication, at least, any action Red China might decide to take to gain control of Formosa.

Johnson's guidelines constituted an omnibus package for negotiation between the United States and the Soviet Union and among the nations of the world generally if Khrushchev is interested. The President stopped short of suggesting a new treaty specifically, though he did not rule one out.

At a minimum, the President's 700-word letter constituted a propaganda reply to Khrushchev's message, which the White House and State Department considered mainly a propaganda document.

In a diplomatic maneuver, Johnson placed heavy emphasis on declaring the peace aims of his foreign policy instead of relying at length to points in Khrushchev's letter to which he and his advisers strongly objected.

Johnson did reassert, how-

## Museum Moves To River Bank In St. Louis

By BEN LAIME

ST. LOUIS (AP)—Old trains, an old plane and a bunch of old railroad cars will soon make their final trip—to the banks of the Mississippi River.

The move is planned to provide more room for the National Museum of Transport, reportedly the largest of its kind in the world. The museum was started in 1944 by a group of St. Louis hobbyists who were trying to find a spot to exhibit old locomotives and streetcars.

Today, the museum has outgrown the greatest expectations of its founders.

Originally the museum occupied five acres of land in St. Louis County. Now it has expanded to 65 acres but a navigable river is needed to put all its wares on display. It will move to the East St. Louis, Ill., side of the Mississippi River, roughly across from the 630-foot-high Gateway Arch.

The aqueduct is the museum's most recent addition. It was built by slaves of the Roman legions occupying France 1,900 years ago.

The things that fascinate almost every visitor are the London cabs and the double-deck buses," Arthur K. Atkinson, chairman of the museum, said.

"One of the taxi cabs," he said, "is a survivor of the London blitz of World War II." The cab pulled fire-fighting carts and hauled away many injured.

"New York City visitors become nostalgic when they spot the familiar Fifth Avenue double-deck buses and the old car from the famous Brooklyn elevated," he said.

Visitors are allowed to roam through the exhibit. And the museum maintains classes during the summer to teach visitors about the history of its relics.

The museum has one of the country's most extensive collections of books and other literature on the history of transportation.

One of the museum's prizes, a 1934 airplane built for Charles Lindbergh, is on loan from the Missouri Historical Society.

The new location of the museum will be in the neighborhood of the Jefferson National Expansion Memorial Park in St. Louis. The location is intended to compliment the polished metal Gateway Arch and its underground display depicting the westward expansion of the United States. About 500,000 visitors a year are expected to tour the museum in its new location.

Indonesian workers took control of the Unilever Co. this morning but the British manager said he still considered himself in charge. However, he did not go to the office.

Reports from West Java said the large P. and T. Land Co. had been seized by its workers and that British families were staying in their homes.

The joint secretariat of the Workers' Union Federation issued a weekend appeal to the government to take over all British firms, including those owned jointly by British and other interests.

The union of Shell workers said it had taken over the oil firm, the largest British business interest in Indonesia. Signs reading property of the republic of Indonesia were plastered on Shell's headquarters building in downtown Jakarta and on many vehicles. At noon, however, the building was still being manned by British officers of the company.

Indonesian workers took control of the Unilever Co. this morning but the British manager said he still considered himself in charge. However, he did not go to the office.

Reports from West Java said the large P. and T. Land Co. had been seized by its workers and that British families were staying in their homes.

# Text of LBJ's Economic Report to Congress

WASHINGTON, Jan. 20 (AP) — Here is the text of President Johnson's economic report to Congress:

To the Congress of the United States:

This is my first report to you under the Employment Act of 1946.

As a member of the Congress at that time, I was proud to vote for this historic act.

As your President today, I am proud to respond to its challenge—to its mandate "to promote maximum employment, production, and purchasing power" within the framework of "free competitive enterprise."

Nothing less than the maximum will meet our needs.

Our Gross National Product for the fourth quarter of 1963 rose to a \$600-billion annual rate.

But an unemployment rate of 5½ per cent continues to

—Cast a long shadow over our pride in this achievement:

—Remind us that far too much of our precious human potential still lies idle.

As I stated in outlining my political philosophy six years ago:

I regard achievement of the full potential of our resources—physical, human and otherwise—to be the highest purpose of governmental policies next to the protection of those rights we regard as inalienable.

The road to that full potential is still a long one. But we have moved steadily and impressively forward in the past three years.

And the tax cut will speed our climb toward our goals of full employment, faster growth, equal opportunity, balance in our external payments, and price stability.

As the Employment Act requires, I shall in this report:

—Assess our progress toward our economic goals.

—Review the current and foreseeable trends in the U.S. economy in relation to its potential.

—Set forth my policy and program for achieving our national economic potential.

**The \$100 Billion Expansion**

As we face the tasks ahead, we have much to build on.

**Economic Milestones**

Our record \$100-billion expansion since early 1961 has carried us past important milestones in the march toward a better life. In 1963, for the first time in history:

—GNP passed the \$600-billion mark, by yearend.

—Average earnings in manufacturing exceeded \$100 a week, by yearend.

—Personal income, before taxes, reached an average rate of some \$2,500 per capita, by yearend.

—After-tax income of individuals exceeded \$400 billion, for the year.

—Corporate profits exceeded \$50 billion before taxes and \$25 billion after taxes, for the year.

Residential construction passed \$25 billion, for the year.

—Civilian employment exceeded 70 million, during the year.

**Extent of the Advance**

These striking statistics tell us where we are. But they do not tell us how far and how fast we have come.

In the nearly three years of unbroken expansion since early 1961:

—GNP is up 16 per cent, measured in constant dollars.

—Industrial production is up 23 per cent.

—Civilian nonfarm jobs are up 2½ million.

—Personal income is up \$70 billion, or 17 per cent.

—Corporate profits before taxes are up \$17 billion, or 44 per cent.

—Net income per farm for 1963 is up almost \$375, or 12 per cent.

—Total after-tax income of the American people is up \$56 billion, or 16 per cent.

—Real disposable income per family is up more than \$600, or 8 per cent.

**Comparative Gains**

It is fair to ask how the 1961-63 expansion in output and incomes compares with earlier upswings in the American economy. Here is the answer:

1. The \$100-billion rise in output in 2½ years knows no parallel in our peacetime economic annuals.

2. The advance of \$51 billion in labor income is also unparalleled.

Average real income of non-farm workers has risen by \$345 a year, a gain not exceeded in any previous comparable period.

3. The rise in corporate profits from a rate of \$38½ billion in early 1961 to roughly \$55 billion at the end of 1963 is notable for three reasons:

A. The 14-per cent annual rate

of advance is high by previous standards.

B. The rise is not only large, but prolonged—at this stage in past expansions, profits had already declined from their peaks.

C. The rise has occurred even as the liberalized depreciation guidelines of 1962 were transferring \$2½ billion of business receipts out of taxable profits into nontaxable depreciation.

Most heartening to me is that these gains to American labor and American business were not at the expense of:

The American consumer—whose income is no longer being eroded by inflation, as prices have held steadier in the United States than in any other major industrial country:

The competitive position of U.S. exports—which has benefited from several years of stable domestic wholesale prices, our best record since the war and better than that of any other major industrial country.

**Contributions of Business, Labor, and Government**

An expansion as long, strong, and free of excesses as the one we are now experiencing does not just happen."

—Business has generally held prices in check, kept inventories on an even keel, and avoided excesses in capital financing.

—Labor has been constructive in its collective bargaining and in its contributions to rising productivity. Average wage-rate increases over the period 1961-63 have been the most modest since World War II, thereby helping to stabilize unit labor costs and improve our ability to compete with Europe and Japan.

—Government has steadily pursued fiscal and monetary policies designed to promote recovery, accelerate expansion, and encourage business and consumer confidence:

In 1961, when the administration's quick antirecession program got recovery off to a flying start:

In 1962, when, in sharp contrast to 1960 and 1957, rising federal purchases, new tax incentives to investment, and continued credit ease lent a steady hand to an economy whose advance was faltering;

In 1963, when prospects of a timely tax cut buoyed a reassured and resurgent economy.

**Federal Purchases and Tax Cuts**

Rising federal purchases have played an important role in sustaining the 1961-63 expansion. They accounted directly for 11 per cent of the growth in GNP, quite apart from their substantial indirect effects in increasing business and consumer outlays.

Our fiscal program for 1964-65 will shift emphasis sharply from expanding federal expenditure to boosting private consumer demand and business investment.

The \$11-billion tax cut will challenge American business, men, investors, and consumers to put their enlarged incomes to work in the private economy to expand output, investment, and jobs.

I am confident that our private decision makers will rise to this challenge.

I am confident of their growing agreement:

—That "new records" in output and employment are not enough:

—That four million unemployed and 13 per cent idle factory capacity are intolerable;

—That the acid test of economic policy is whether we can make full use of our growing labor force and our rising productivity—our full potential.

**The Job Ahead Of Us**

We have not yet met this test. New high ground is not the summit. That still lies ahead.

Our 1961-63 advance—though impressive, sustained, and non-inflationary—has not gone far enough and fast enough:

—To create the jobs needed

—To get our factories humming to desired capacity;

—To lift our GNP to its reasonable potential.

—To restore the growth rate of our productive potential to the pace we took for granted in the early postwar period.

—To raise the incomes of farm families to a level more comparable to those of nonfarm families.

—To expand investment and profits to levels that will hold more of our capital funds at home and thereby shrink our external payments deficit.

The size of the job that lies ahead of us is measured by:

1. Unemployment—5½ per cent of our labor force is still idle, even after a year-to-year advance of \$30 billion in our GNP. Taking into account the added workers who seek employment as jobs become more

plentiful, we would need at least two million more jobs today just to get rid of stubborn excess unemployment.

2. Productivity advance—We need about two million new jobs each year to offset the labor-saving effects of rising output per worker.

3. Labor force growth—More than a million added jobseekers enter the labor market each year—indeed we will soon need 75 million jobs.

4. Unused capacity—Operating rates in manufacturing still average only 87 per cent of capacity, against the 92 per cent rate preferred by business managers.

5. Wasting potential—Men, machines, and materials that lie idle today could readily add about \$30 billion more to our \$600-billion GNP.

6. The balance of payments deficit—Although sharply reduced by the determined steps announced in July, the deficit is still with us. And gold outflows—though only half as large in 1963 as in 1962, and less than half as large in the three years 1961-63 as in 1958-60—have not been eliminated.

**Early Tax Reduction**

If we are to master these problems, we must above all enact the tax bill (H.R. 8363):

—Not in one or two or three months, but now;

—Not in diluted, but in strengthened form, with an immediate drop from an 18 per cent to a 14 per cent withholding rate.

Far too long, our economy has labored under the handicap of federal income tax rates born of war and inflation:

—Those rates were designed to curb demand in an economy bursting at the seams.

—But now, when demand and incentives are not strong enough to make full use of our manpower and machines, the tax brake is set far too tight.

—We need to release that brake quickly to put billions of new consuming and investing funds into the hands of the private economy.

**Great Fiscal Stimulus**

Speedy passage of the tax cut, at the 14 per cent withholding rate:

—Will cut individual income tax collections by \$8.8 billion in 1964, over \$2 billion of which will come from lowering the withholding rate to 14 per cent instead of 15 per cent;

—Will cut corporate tax liabilities by \$1½ billion in 1964;

—Will provide a net fiscal stimulus, taking both expenditures and tax cut into account, that will be three times as great in 1964 as in any of the years 1961, 1962, and 1963;

—Will, in fact, provide a greater net stimulus to the economy in 1964—to jobs, production, income, and profits—than in any other peacetime year in history.

The economics of efficiency is in no way inconsistent with the economics of expansion. By combining efficiency with expansion, frugality with compassion:

—We shall hold the fiscal 1965 budget below the fiscal 1964 budget, and cut the deficit in half;

—We shall get a dollar's value for a dollar spent, while not fearing to spend a dollar when and where the nation will reap a full dollar or more in benefit;

—We shall strengthen our programs to meet pressing human needs; fully satisfy our defense requirements; and respond to the demands of economic progress;

—And we shall, at the same time, provide an unparalleled fiscal stimulus to the economy.

**Sustained Expansion**

The tax cut will give a sustained lift, year in and year out, to the American economy.

When fully effective in 1965, it will send well over \$1 billion annually coursing through the arteries of the private economy.

The resulting stream of purchases by willing consumers and of investment by responsive businessmen will, at full strength, expand the tax cut's initial impact several fold.

—And we shall, in the form of a year, reap this benefit in the form of

—\$3 to \$45 billion more GNP,

—\$25 to \$30 billion more consumption,

—\$5 to \$7 billion more profits, than we would attain without the tax cut.

These gains, growing steadily, will at long last lead to a balanced budget at full potential.

**Safeguard Against Recession**

For the near term, the tax cut will give us the vital fiscal safeguard we need against recession. It will convert what is already a long and strong advance into the longest and strongest expansion in our peacetime history.

**Price-Wage Policy**

In 1964

Prospects are favorable for continuing in 1964 our good record of price stability and stable unit labor costs:

First, the price and wage record from which we start is excellent:

A. The wholesale price index is still below the level of 3 years ago.

B. The consumer price index is in excellent condition to weather the adjustments that may be required.

C. Average wage increases have stayed generally within the bounds of productivity increases.

Second, because of wage mod-

—By April, it will have outdistanced all but the long and incomplete climb out of the great depression from 1933 to 1937.

Third, the tax cut will further reduce costs, increase take-home pay, and keep sales and profits rising.

Fourth, with ample supplies of labor and industrial capacity, the force of expanding demand touched off by the tax cut can express itself in more output, income, jobs, and profits rather than inflationary price or wage increases.

Nevertheless, a series of specific price increases in recent months—especially in manufactured goods—gives me some cause for concern.

I do not anticipate a renewal of the price-wage spiral—a spiral that would weaken our expansion and worsen our balance of payments position.

I count on the sense of responsibility of the nation's industrialists and labor leaders:

—To extend the excellent price and cost records of recent years.

—To maintain price and wage policies that accord with the noninflationary guideposts that I have asked the Council of Economic Advisers to reaffirm in its attached report.

In the face of a 44 per cent increase in corporate profits in less than three years and the prospect of further increases to come with the tax cut, I see no warrant for inflationary price increases.

With the tax cut, our balance of payments will improve.

—To maintain price and wage policies that accord with the noninflationary guideposts that I have asked the Council of Economic Advisers to reaffirm in its attached report.

—To extend the excellent price and cost records of recent years.

—To maintain price and wage policies that accord with the noninflationary guideposts that I have asked the Council of Economic Advisers to reaffirm in its attached report.

—To extend the excellent price and cost records of recent years.

—To maintain price and wage policies that accord with the noninflationary guideposts that I have asked the Council of Economic Advisers to reaffirm in its attached report.

—To extend the excellent price and cost records of recent years.

—To maintain price and wage policies that accord with the noninflationary guideposts that I have asked the Council of Economic Advisers to reaffirm in its attached report.

—To extend the excellent price

LUNCHEON FOR VISITOR—Mrs. Robert LeFevre entertained at luncheon Thursday in the Penrose room of the Broadmoor Hotel, complimenting Mrs. Ludwig von Mises of New York City. Pictured at luncheon, as

For Want Ads, Dial — 632-4641

#### Low, Low Prices on Small Appliances at Hatch's

You never pay retail at Hatch's for G.E., Sunbeam and other make toasters, steam irons, shavers, mixers, percolators, etc. PRICE WAR always going on at Hatch's, 28 So. Tejon!

#### Observes 93rd Birthday

Mrs. Mary Adeline Hall, who has been a resident of Colorado Springs for more than 30 years, observed her 93rd birthday, Friday, Jan. 17, at the Kadlec Nursing home, 34 Cheyenne Blvd. Mrs. Hall was born Jan. 17, 1871 in Springfield, Mo. She is

#### Honorary Patrons Announced for Mardi Gras Ball

Gov. John A. Love and Air Force Gen. John K. Gerhart have accepted honorary chairmanship positions for the Pikes Peak Mardi Gras Charity Ball on Feb. 8, at the Broadmoor International Center.

Gov. Love is the honorary co-chairman, and Gen. Gerhart, commander-in-chief of NORAD, becomes the honorary military chairman.

This 18th annual affair, sponsored by the Mystik Krewe of Comus, a regional civic organization, will be highlighted with a Queen coronation, the attendance of Miss Colorado of 1963, and the dancing music of Tony Pastor and his orchestra.

Reservations can be made thru Orville Trainor by calling 633-4673, the Swiss Chalet or at Boettcher and Co. in the Antlers Hotel.

From eleven attractive Colorado Springs young ladies, one will be crowned "Queen of the Ball." These girls are being judged during pre-ball activities for their poise, personality, and beauty. The judges have been selected from the Mystik Krewe by secret ballot.

MRS. MARY ADELINE HALL

\*\*

Paso St. for 30 years after moving to Colorado Springs from Moberly, Mo.

Mrs. Hall is cheerful, happy, and interested in current affairs. She credits the "wine-like air of Colorado Springs" for keeping her young.

#### Ent Bridge Club Lists Results

#### Delta Zeta Alums Meet This Evening

Delta Zeta Alumnae Chapter will meet at the home of Mrs. S. A. Robinson, 2035 Oriole, for an evening of cards at 7:30 tonight. Assisting the hostess will be Mrs. Rhodes Jennings.

Mrs. William Dorsey, president, will conduct a short business meeting prior to the social portion of the evening. Plans will be formulated for the visit of Mrs. T. M. Evans, Province vice president.

Eagles Auxiliary Will  
Convene Wednesday

The regular meeting of the Eagles Auxiliary will be held at 8 p.m. Wednesday at 109 W. Colorado Ave. A mock meeting will follow for entertainment.

Night Nukumers Will  
Dine at Acacia Hotel

Night Nukumers will meet for dinner Wednesday evening at the Acacia Hotel. Reservations should be made by calling 633-0553 or 633-5051.

#### WCTU Will Meet at Bethany Baptist Church

Colorado City WCTU will meet at 2 p.m. Tuesday at Bethany Baptist Church.

Deviotions will be given by Mrs. DeWitt; a report on the Washington Letter by Mrs. Walters; and the lesson by Mrs. Krichbaum. Mrs. Ballard and Mrs. Krichbaum will be hostesses.

Mrs. Schneider Hostess  
To Xi Beta Mu Chapter

Xi Beta Mu Chapter of Beta Sigma Phi will meet at 8 p.m. Wednesday with Mrs. George Schneider, 2202 Patricia Way.

Mrs. Douglas Curtis will present the program on "High Moments of Art."

Rebekahs Meet Thursday

Colorado City Rebekah Lodge

89 will convene at 7:45 p.m. Thursday at the IOOF Hall, 128 N. Nevada Ave.

Mrs. May Hastings, noble grand, will preside. Visiting Rebekahs are welcome.

#### Walt Freudenberg's MAYTAG LAUNDRY

(Next Door to Central Vacuum)

#### St. Vrain and Union

8 Pounds Dry Cleaning ..... \$1.50

HOT DRYERS 10 minutes ..... 10c  
REFRESHMENT AND SUPPLY VENDING MACHINES

#### More Tables Now Available For Benefit Fashion Show

Because of the enthusiastic demand for tickets to the benefit fashion show and luncheon being given by the Colorado Springs District Council of Catholic Women, it has become necessary to move the show from the Terrace Room of the Antlers Hotel to the General Palmer Room. This will make available many more tables and reservations to the show will continue to be taken until Wednesday noon. Mrs. Raymond D. Nixon, president, and Mrs. Clifford P. Semmens, chairman suggest those who called previously and were unable to secure tickets to call again for reservations.

Added to the previously published list of reservations are the following: Mrs. Frank Sutton, Mrs. Wilfred Lierz, Mrs. Samuel J. Skodack, Mrs. Tom Hockman, Mrs. Don Semon, Mrs. David Spillane, Mrs. Charles Hammitt, Mrs. Chester Dorr, Mrs. Ernest Kovaly, Mrs. Jamie Doolittle, Mrs. Darelle Norris, Mrs. Don Taylor, Mrs. Wm. McConnell, Mrs. H. L. Buss, Mrs. John Kelly, Mrs. Von Marshall, Mrs. E. A. McCready, Mrs. D. W. Niswonger, Mrs. Fred Hines.

Mrs. William Bash, Mrs. William Hines, Mrs. Dan Swickowski, Mrs. Jack Finlayson, Mrs. Des Donnelly, Mrs. William Hall, Mrs. Patrick Dawson, Mrs. T. J. Roche, Mrs. John Pearson, Mrs. William Suthers, Mrs. George Clark, Mrs. William Calvert, Mrs. Alfred Roman, Mrs. Leland Racette, Mrs. Red Quaney, Mrs. Joe Hunke, Mrs. Donald Kaup, Mrs. M. A. Terpovsky, Mrs. Adele Schroeder, Mrs. Eugene Hays, Mrs. Larry Elliott, Miss Mary Frances Vollmer and guest.

Mrs. Marian Knumba, Mrs. Virginia Dandrea, Mrs. Sue Gudagnoli, Mrs. Frank Lanza, Mrs. Walter Maloney and guests.

Mrs. Mary Kay Greenwood, Mrs. Alas Pickharts, Mrs. Phil Pacheco, Mrs. James Linkins, Mrs. Dennis Savells, Mrs. Helen Foster, Mrs. Elsie Schnackenberg, Mrs. Ralph Haefele, Mrs. T. L. Montgomery, Mrs. Paul Poduska, Mrs. Jerry Stack, Mrs. Mons Olsen, Mrs. John Scheehan and guest, Mrs. Otis Heald, Mrs. Edmund Krawzyk, Mrs. C. H. Kullenburg, Mrs.

Forty-six players competed in the twenty-four board Mitchell movement game.

Winners North South were:

First, Mrs. L. E. Brice and Mrs. J. W. Hale 63.5 per cent; second, Mrs. R. H. Alderson and Mrs. W. M. Godfrey 62.9 per cent; third, Mrs. E. W. Heinz and Mrs. M. R. Patterson 51.5 per cent; fourth, Mrs. A. R. Fall and Mrs. J. B. Glaskin 51.3 per cent.

East West: first, Mrs. R. P. Dowell and Mrs. G. E. Marvin 63.9 per cent; second, E. H. Bass and Mary Jo Thiemann 60 per cent; third, Mrs. G. D. Fitzmorris and Mrs. R. M. Smith 54.8 per cent.

All interested bridge players are invited Club at Carpenters Hall at 1 p.m. each week.

If you need a partner or information call Mary Jo Thiemann 632-3231, or Mrs. Robert Suhrik 633-9457.

Valley-Hi Ladies Plan Luncheon Thursday

Valley-Hi Ladies Club will have a special "wine tasting" luncheon Thursday at the club.

Mrs. Forest K. Lundquist is chairman of the event and will be assisted by Mrs. R. J. Wilson, Mrs. Charles Cox and Mrs. McCarty and Mrs. Louise Reamaklus.

Reservations should be made not later than Wednesday by calling the club, 632-1360.

Charter Chapter, ABWA, will elect officers at a meeting to be held at 7:30 o'clock at the Village Inn.

Naomi Rebekahs will convene at 7:45 o'clock in the IOOF Hall.

Tri Delta Alumnae will be guests of Mrs. Paul Bradley, 2617 Holiday Ln. at 7:45 o'clock.

Past President of VFW Auxiliary 101 will meet at 8 p.m. with Mrs. Eva Toy, 308 W. Plate Ave.

PTA meetings will be held as follows:

Columbus PTA at 7:30 p.m.

TUESDAY

Kappa Kappa Gamma Alumnae will have a coffee at 9:30 a.m. at the home of Mrs. William Lennox, 44 Friendship Ln.

AAUW Great Books Group V will meet at 10 a.m. with Mrs. George Walker, 2010 E. San Rafael St.

Soroptimists will meet for luncheon at noon at the Antlers Hotel.

Christian Women's Club will have a luncheon at 1 p.m. at the Antlers Hotel.

Mrs. Clarence Foulk, 1615 Manitou Blvd., will entertain the Merry Matrons HD Club at 1 p.m.

Lady Lions luncheon will be held at 1 p.m. at the Village Inn.

Women's Relief Corps will

## Hints from Heloise

By HELOISE CRUSE

Dear Heloise:

For those who do not have a lot of kitchen cabinets or pantry shelves, here is the way I keep my canned goods.

I have drawers directly under my kitchen counters. Except for two (which hold silverware and kitchen gadgets) all were junk repositories.

I rearranged my kitchen by putting my cans of food and vegetables in these drawers. Rather than standing the cans up, I put them in the drawers laying "down".

Now I open a drawer and see everything I have at one glance. Nothing is on top of anything, or behind anything.

You will be surprised at the number of cans that can fit into a kitchen drawer. —Joy Cousminer

Dear Heloise:

I read about the woman who wrote you that she puts clear nail polish on her medicine bottles when she gets them — to preserve the number, etc.

When I fill a prescription I put several strips clear tape over the whole label. The bottle can then be wiped or handled as many times as necessary without harming the label. This is easier and less expensive than nail polish and I think does a better job. —Ralph E. Burland, Pharmacist

### Letter of Love

Dear Heloise:

I save the greeting cards my husband gives me and put them in different drawers in our dresser. It is nice to open or straighten a drawer and see a pink or rose-colored card that says "For my wife on her birthday with all my love" or open another drawer and find an anniversary card which says "I love you very much". —Lucille Tedrow

Dear Heloise:

If you live where there is snow in the winter and you have small throw rugs to keep clean . . . take them outside, put a thin covering of snow on them and just sweep them clean with your broom.

This dusts them off and brightens them up beautifully and the rugs aren't as wet as if you had washed them by machine. —Dolores Sullivan

And I'll just bet you're Irish! That's a terrific idea. —Heloise

Dear Heloise:

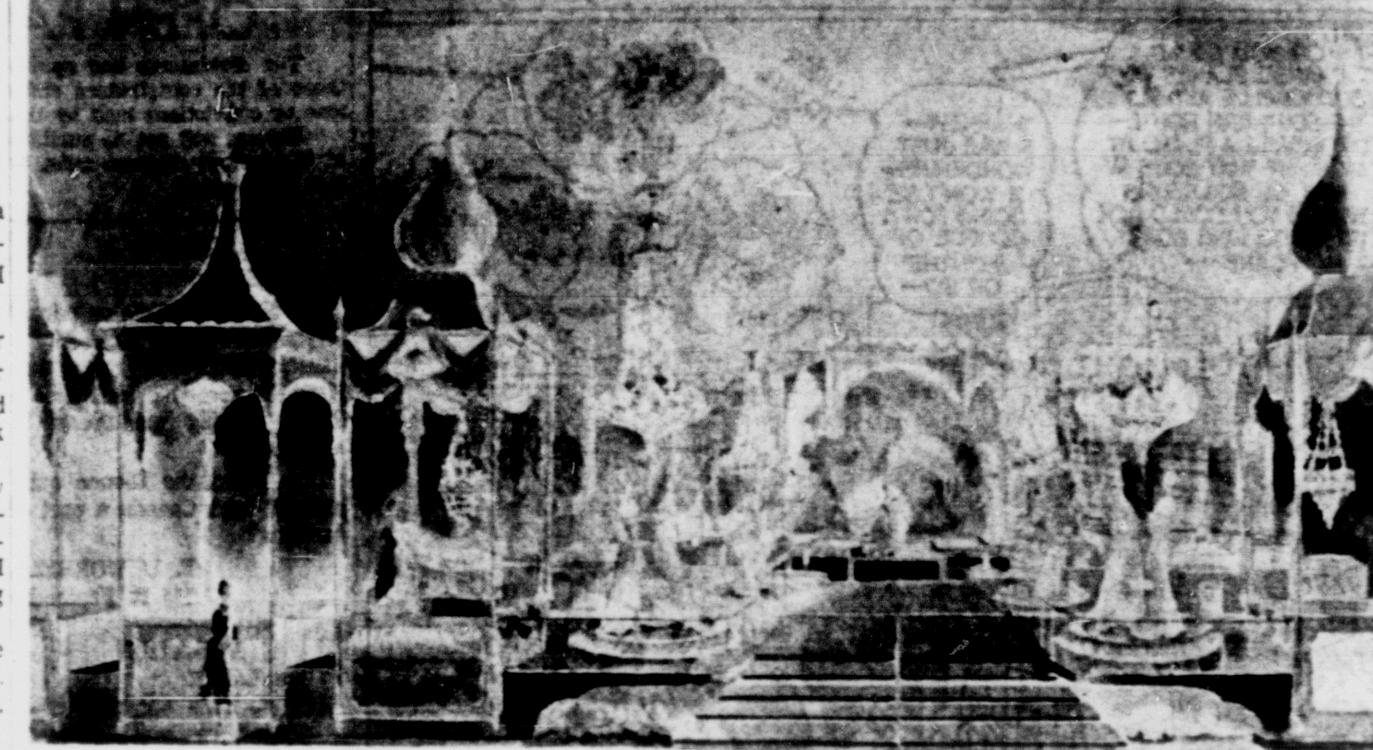

Recently there was a suggestion about rubbing a cigarette on the dirty windshield of the car to clean it when it begins to rain.

This suggestion may prove to be messy and may even stain the paint job on some cars. So I hit upon the solution of buying a 15 cent bag of tobacco! The bag allows the juice to escape but holds back the shredded tobacco when wiping a windshield. —Maureen Redak

Dear Heloise:

I have found a new use for our picnic basket.

I put all my mending to be done in it. It holds plenty . . . and is easy to transport from room to room and chair to chair because it has handles. It does double duty all year.

ARTIST AT WORK—Pictured in his studio is Robert Cleaver Purdy, who did post graduate work at the Fine Arts Center here. Mr. Purdy designed the Crystal Palace pictured above, for the 1964 World's Fair, which will be held in New York City.

## Former CS Student Designs 'Crystal Palace' for Fair

Robert Cleaver Purdy, who glamour to the exotic atmosphere spent a year of post graduate work after taking his Master's Degree in Fine Arts at the Colorado Springs Fine Arts Center, was the royal pavilion at has designed the New York Brighton, the summer home of George IV in the 1830's, then facility for the Fair's Better Prince of Wales. This period marked the unsurpassed elegance in England of the style known as Regency.

The lush Regency elegance of the Better Living Center's Crystal Palace of Fashion at the 1964-65 New York World's Fair in a typically ante-bellum showplace of a plantation house that might have never existed at all, if as a boy in Bradfordville, Ky. in 1921 he had not broken his hip while ice skating.

Mr. Purdy spent three years in a plaster cast following his accident. This physical debility also presented enormous psychological problems, but due to an interest in painting that was fostered merely as a device to help him retain his will to live, a great creative talent came into being.

The Crystal Palace of Fashion is the latest in his series of artistic triumphs which include five exhibits in top New York galleries, and in every major museum in the country — including the Metropolitan Museum, and the Museum of Modern Art in New York, and fourteen years as Assistant Director of Display in R. H. Macy's in New York.

The elegant fashion showcase at the World's Fair was designed in the form of an amphitheatre, with six different types of display boutiques arranged around a stage over a reflecting pool. There four daily fashion shows, presented by leading magazines and fashion authorities, will feature the most magnificent designs in apparel, accessories and cosmetics that the American fashion industry has to offer. The ingenious floor plan affords not only a free-flowing traffic pattern, but also unobstructed views from any given point in the Crystal Palace as well as from overhead ramps. Perfume fountains and an electronically-controlled synchronized display of music lighting and water will add

Always, in spite of great commercial success in display design for such outstanding firms as Delman, Revlon and Macy's, Mr. Purdy's main desire has been to devote his full time to painting.

Now the circle is full. With plans for the Crystal Palace of Fashion in the final stages of completion, this incredible history of achievement is spite of personal tragedy has again led Robert Purdy back to this, his favorite medium. His present

plans include a "retreat" on Maryland's eastern shore, a lovely Federal style house. In this setting of water, willows and wild swans. Mr. Purdy at present is readying his new collection of paintings, shortly to be seen in New York.

The opening fashion event in the Crystal Palace, at the Better Living Center pavilion of the 1964-65 New York World's Fair, will be a fashion presentation by Lord & Taylor.

Lord & Taylor will stage their first series of twice-daily fashion shows during the opening month of the Fair, it was announced by Melvin E. Dawley, president.

The presentation will be the first in the continuing series of outstanding shows at the Better Living Center's Crystal Palace of Fashion. In future months presentations will be staged by leading publications, designers and manufacturers in the fashion field.

Women of Moose to Meet Columbine Chapter 373. Women of the Moose, will have a regular meeting at 8 p.m. Tuesdays in Moose Hall.

Refreshments will be served by the publicity committee.

Hi-Lo Club Names Winners Mrs. Clara Marquardt and Mrs. Opal Lawson made high scores at bridge when the Hi-Lo Bridge Club met Thursday at the YWCA.

Special guests were Mrs. Lawson and Mrs. Paul Mason.

Bananas can be stored for several weeks in the vegetable bin of the refrigerator, individually wrapped in aluminum foil. When unwrapped, the banana skin will be black, but the inside will be firm and tasty.

The Italian fashion spotlight shifts Sunday to Florence for showings by North Italian dress houses.

### ANSWERS TO BRIDGE QUIZ

North East South

1 Hrt. 2 Clubs ?

What do you bid now?

A.—You must deliberately avoid the rebid of two spades, inasmuch as such a rebid denotes a mediocre opening. It is distinctly more important to describe the strength of your hand than the solidity of your suit, so that your very good major suit should be suppressed in favor of a two notrump rebid.

Hearts, a jump. If you bid only two hearts partner may gain the impression that your hand is simply unsuited defensively, and he will be under no obligation to proceed.

# COLO. SPRINGS GAZETTE TELEGRAPH

Your Freedom Newspaper

Ever striving for the Pikes Peak Region to be an even better place to live.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is self-control, no more, no less. It must be consistent with the truths expressed in such great moral guides as the Golden Rule and the Declaration of Independence.

## Primary Clash Of Wills in Maryland

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — President Johnson and Attorney General Robert Kennedy are facing the first significant test of their tenuous arrangement to let bygones be bygones and to work together until after the November elections.

Each is supporting a strong candidate for the Democratic senatorial nomination in nearby Maryland's May 19 primary, and the outcome of this backstage clash of wills and personalities remains to be seen. It could end the "marriage of convenience" before getting very far.

Favored by the President is State Comptroller Louis Goldstein. Also backing him are Governor Millard Tawes, Senator Daniel Brewster, and other influential leaders of the regular party organization.

"Bobby" Kennedy's candidate is former U.S. Attorney Joseph Tydings. The son of the late long-time Senator Millard Tydings was named to this important federal job for the avowed purpose of furthering his prospects to seek the seat held by Republican Senator Glenn Beall.

Prior to President Kennedy's assassination, the stage was set for his administration to throw its weight behind Tydings. In all cases, the real reason for the growth of the city was the economic advantage to be obtained thru the gathering together of employers and employees, the massing of goods which could be offered for sale, and so on.

His words were that the "... only feasible answer is for the people to spread out over a greater area so they can move around without bumping into each other."

"That, essentially, is what so-called 'urban-sprawl' is doing. What's wrong with it? Urban sprawl is really healthy growth.

"There are," he admitted, "attendant problems, particularly for the central cities which urbanites leave behind. The volume of traffic between suburbs and between city and suburbs increases, and unless highway and street improvements keep pace, the result is traffic congestion that discourages the commerce the city is dependent upon."

Mr. Reid is, of course, supporting even wider reliance upon the automobile, which is understandable. But he cited a sound economic principle when he said: "The automobile did not create a demand for suburban living — it served the demand. People wanted to live where they could grow grass, live in ranch houses, cook outside and let the toddlers out of the house. They wanted to live where they wanted to, not where they had to in order to get to work."

Actually, the growth of urban centers is now spreading out to what is being termed the "strip city." This doesn't really mean the abandonment of cities. It means the enlargement of cities into a new pattern, never before dreamed of by man. And modern transportation, including rail, mono-rail, bus, automobile and modern transportation are changing the face of things and making it possible for man to live the way he has always wanted to live.

If we can de-emphasize government dependence, and re-emphasize economic understanding, there is no limit to what can be achieved by men who are free and who are willing to produce.

## Limited

Many people tell us they want limited government. What they are really saying is that they want a limitation on the government's power to take their money and property.

## Grain Diversion

The United States taxpayer has apparently been taken to the barter program. Sharp traders in West Germany and Austria apparently worked out a diversion of 24,000,000 bushels of specially-priced U.S. feed grain sold to Austria but diverted into regular European trade channels.

The above figure represents the profits made on the deal, according to John J. Williams, Delaware Republican, who has been pressing for a solution to the mystery of who made the profits.

The grain was sold from the U.S. surplus stocks at less than world prices and was slated to be consumed in Austria. Importers, by diverting the grain into the world market, were able to pocket or share the difference between world prices on the grain and the lower prices at which the U.S. government sold the grain.

Such a situation would never have come about had this transaction been negotiated in the market place under the rules of basic economics and free enterprise.

Under free market rules and without government intervention, the value of the grain would be determined when buyer and seller got together, and where the commodity was taken afterwards would be solely the business of the buyer.

Actually, what did happen in the transaction under the system of government intervention and control?

Finally, there is a basic six to eight per cent discount from the world grain price allowed only to those importers who were fraudulent

and deprived of what they had prior to present government

They'll Do It Every Time

By Jimmy Hatlo

## The Truth—And Nothing but!

By GEORGE BOARDMAN, PhD

While reading an article this evening I remembered a few rods which my Irish grandfa

ther r. verba

— used when

he whipp'd

words together

for extra em

phasis. For in

stance, "Edu

cation is a

curse altogeth

er but learning

is something

else again. An

educator is a felly who teaches

kids how to memorize and a

teacher gives them some learn

ing but how can you tell the

difference without your grand

father along to give you a

nudge? An educator teaches you

how smart he is and a teacher

helps you to be smart and that's

the difference between 'em."

President Johnson is giving

the green light to continuing the

lucrative fund-raising innova

tion of his late predecessor —

\$1,000-a-plate Presidential

Club.

Johnson not only wants it kept

on, but has set May 23 for the

first get-together under his aus

picies.

The occasion is to consist of

a dinner at \$1,000-a-plate to be

attended by the President, fol

lowed by a \$100-a-ticket gala. In

effect, this plan is a duplicate of

the contemplated January 19

celebration of the third anniversary of President Kennedy's in

auguration. That was washed

out by his untimely death.

Some of Johnson's advisers

wanted to drop the \$1,000-a-plate

Presidential Club. They urged

confining the event to the old-

style \$100-a-plate dinner follow

ed by a series of speeches. The

President overruled them.

He has also laid down the rule

that between now and the Dem

ocratic convention in Atlantic

City in August, he will limit

his fund-raising speeches to one

a month.

Democratic National Commit

tee men are being told two re

asons are behind this restriction

The President's desire to con

centrate his time and efforts on

producing an "outstanding rec

ord" in Congress, and to con

serve his energy and health as

strongly urged by his doctor.

The President attended one

fund-raising dinner last week,

but made no speech.

If he continues to work for

Tydings, that will put him at di

rect loggerheads with the Pres

ident and his faction. If the at

torney general bows to the new

administration's sentiments, he

will be breaking ties with Mary

land politicos who were very ac

tive for his late brother in the

crucial 1960 pre-conven

tructure.

The full Cabinet was lined up

outside the main entrance of the

House of Representatives, wait

ing for the President to arrive.

paid for; the United States tax

payers who subsidized the

bartered grain and the over

loaded mineral and metal stock

plies; American exporters sell

ing full-priced grain in com

petition with government-cau

ed-discount grain; United States

mining and mineral companies

competing against bartered

minerals and metals actually

paid for by the taxpayer; the

economy as a whole deprived of

the gold credits which would

have accrued from an out

right sale by American busi

nessmen to the Austrian econ

omy.

However, \$32,000,000 worth of

the grain never reached Aus

tria. It went instead to 10 other

European countries. Mostly, it

stayed in West Germany, where

it was unloaded at the

ports of Hamburg and Bremen.

At last count it was reported

that about 80 per cent of the

missing grain has now been

traced to the other countries.

Altho Austria did not get

much of its grain, the United

States was paid in full by the

Austrian importers, and the

U. S. barter contractors used

the money to buy minerals and

metals where they were avail

able as part of the barter con

tract.

The great bulk of these ma

terials went into the already

bulging U.S. government stock

plies, leaving the country with

more surplus grain and more sur

plus metals and minerals.

Who got hurt? The Austrian

importers who were fraudul

ent and deprived of what they had

## Vital Statistics

### BIRTHS

AIR FORCE ACADEMY HOSPITAL

MARTIN — Staff Sgt. and Mrs. Ervin L. Martin, 1110 Holmes Dr., Ft. Carson, a boy, 4 ounces, born Friday, Jan. 17, 1964.

## Corpses May Be Used for Blood Supply

By AL SANDNER

DENVER (AP) — Faculty salaries at junior colleges in Colorado average about \$1,900 yearly below those of faculty members at four-year state colleges and universities.

William McDivitt, president of Otero Junior College at La Junta, made that statement to the legislature's Joint Budget Committee last week. Both the colleges and junior colleges, he said, "are competing for the same manpower."

The presidents of Colorado junior colleges repeated to the budget committee a request made earlier this year to Gov. John A. Love for \$519,877 to help offset tuition losses which they suffered when the Colorado Supreme Court declared a legislative act unconstitutional. The act would have required counties outside a junior college district, where junior college students reside, to pay the full cost of their education.

President Ervin French of Northeastern Junior College at Sterling told a reporter there now are students in junior colleges from all 63 of Colorado's counties. The only public junior colleges are Mesa at Grand Junction, its branch at Rangely, Trinidad, Lamar and Northeastern and Otero.

French said that the average cost for educating a full-time student at a Colorado junior college is \$740 a year. He said fees pay about \$160 of this, the state supplies \$300 and the remaining \$280 must be picked up by local tax payers. The property tax in Logan County, he said, has had to be raised 3.5 mills to take care of increasing enrollment at his own institution.

Meanwhile, research is being conducted on how to make smoking safer. This includes the use of filters, changes in smoking patterns, and encouraging cigarette users to switch to pipes, cigars, or little cigars. These forms of tobacco are less hazardous because the individual does not inhale.

Many authorities believe reforms are needed in cigarette advertising and promotion. They want the labels on the package to dispense to contain informative material, urging caution, as is done with many other products. Tobacco withdrawal clinics are proving successful in Europe, and are beginning to catch on in this country.

Dr. Van Dellen will answer questions on medical topics if stamped, self-addressed envelope accompanies request.

### Five Stones

E. B. D. writes: I have five gallstones — one large and the others, smaller. Is there any medicine to reduce them in size? If not, how can I get rid of them?

### Reply

There is no way to dissolve gallstones medically. Removal of the gall bladder and its stony contents will solve this problem forever.

### Reply

If an agreement is reached, McLaughlin said, passage of the bill will be sought during the session of the legislature. A vote of taxpayers in the area would be necessary before any separation could be made.

## Shepard Recovering From Surgery

HOUSTON, Tex. (AP) — America's first man in space, Alan B. Shepard Jr., was reported in excellent condition after undergoing surgery Friday for removal of a small non-malignant growth from his thyroid gland.

The operation, he noted, is the largest of the schools with an enrollment of 1,340 at Grand Junction and 115 at Rangely.

In another development, St. Mary's McLaughlin of Rangely told the House of Representatives Committee on Education that Rangely and Mesa County officials are trying to work out an agreement on a bill which would open the way for separation of the two institutions.

If an agreement is reached, McLaughlin said, passage of the bill will be sought during the session of the legislature. A vote of taxpayers in the area would be necessary before any separation could be made.

### Reply

It appears to be in some persons and they ought to curtail the ingestion of such items as chocolate, citrus fruits, and alcohol. But the cause of this type of headache is not known in the majority of victims except that heredity and personality play important roles.

### Reply

It appears that periods of remission often occur. Send stamped, self-addressed envelope.

### Reply

Yes, although periods of remission often occur. Send stamped, self-addressed envelope.

in disaster areas.

PONTIAC, Mich. (AP) — Russian accomplishments with blood transfusions spurred a Michigan research team to discover how corpses could provide the blood to keep injured persons alive in the battlefield in disaster areas.

Dr. Jack Kevorkian and researchers Neal Nicol and Win Reina of Pontiac General Hospital announced Friday night that they had performed the first known direct transfusions of blood from human corpses to living persons.

The process, Kevorkian said, is a simple one "with what appears to us to be tremendous military possibilities."

Kevorkian had read Russian medical journals that described the taking of blood from persons who had just died, storing it and then transfusing it into living patients.

The fight against smoking is aimed at the teen-ager. More youngsters are starting to smoke than adults are quitting. This is logical because it is difficult to stop after the habit is well established. Those who start smoking early in life are more likely to develop the diseases mentioned because they smoke over a longer period of time.

Meanwhile, research is being conducted on how to make smoking safer. This includes the use of filters, changes in smoking patterns, and encouraging cigarette users to switch to pipes, cigars, or little cigars. These forms of tobacco are less hazardous because the individual does not inhale.

## Armed Forces News

By STEVE TILLMAN

WASHINGTON — (Special to Gazette Telegraph) — Defense officials are hopeful of some action in Congress within the next few months on the Bolte Officer Personnel Plan which would, among other things, make uniform the retirement requirements of active duty regular and Reserve officers.

For some time budget officials have been worried about the discrimination in the laws by which retiring active duty Reserve officers receive more retired pay than regular officers of equal grade and years of active duty.

The spokesman for the Reserve Officers Association says that active duty Reserve officers up to the recent months have been denied equal opportunity of service schooling with regular officers and that this held them back on promotions in an active duty status so it is only right and fair that they — the active duty Reserve officer continue to receive permanent promotions in the Reserve and retire in the higher grade without performing any active duty in that grade.

The Bolte plan would require all to perform minimum of six months active duty in the grade in order to retire in the specific grade. As of now senior Army and Air Force officers must serve 2 years in grade for retirement but active duty Reserve officers were specifically exempted last July from the requirement of active duty in the retiring grade.

A new defense policy states that if foreign beer is sold in bottles in overseas exchanges and clubs, then American beer will be sold in the same way. At the same time the Pentagon states to local commanders that they will not provide free transportation for foreign merchandise going to non-appropriated funds activities such as overseas exchanges and clubs.

Pentagon sources say that the evaluation of the responses from local commanders on the equal opportunity inventory has caused many of the incoming reports to be returned to local commanders for more "responsive" data. The Pentagon is holding back from releasing the completed survey on the racial situation confronting local installations and the local communities.

The Defense department is planning to bring all of the Service and Defense Agency procurement regulations into one single regulation.

In the latest report on what he termed "waste in Defense Management," the Comptroller General says that the Armed Forces wasted funds in placing household goods in temporary storage, and claimed that this waste amounts to \$1.2 million dollars annually. The basis for the waste he claimed is delay on part of transportation officers to have goods delivered to available quarters and delay on part of incoming personnel to request such delivery.

Congress will be asked to raise the Government's contribution to Civil Service Retirement Fund but the Civil Service Commission will not ask Congress to raise present employee contributions of 6½ per cent of his salary to the fund.

Federal employees and military people contribute \$20 million annually to charity drives and the Government about \$5 million for "overhead" expenses of these drives. The Civil Service Commission is seeking to merge all charity drives into one annual fund raising effort but is meeting with resistance from the various "drive" groups. These groups feel that they would collect less money by the single drive, but the Civil Service Commission feels that "pressure" on employees and service personnel once a year is sufficient.

The Army's airlift next month of 4,000 troops from Hawaii to Okinawa may have important conclusions.

### Car Stolen While Owner in Hospital

A car was stolen from a woman while she was in the hospital, police reported this morning.

Ella Hull Martin, 320 N. Tejon St., told police she entered St. Francis Hospital on Dec. 28, leaving her locked car parked in the B-Bar-B Ranch and George Dageanakis of the Square-D.

On the San Luis Outfit headed by Ralph Jacobs, it will be Jack Waymire as boss of the Flying-Y Ranch, Dr. Harold Will boss of the Diamond-O and Glen Van Horn as boss of the Red Rock Ranch.

Each ranch boss must enlist three foremen to serve on his ranch who in turn will each receive six cowpokes or workers to round out the organization.

A radiator worth \$45 was stolen from the car of Shirley Belle Myers, 1804 S. Cedar St., over the weekend.

The car was parked in a lot at St. Francis Hospital when the theft occurred.

Two more of the Air Force's

## Airmen Will Trade Tools for Sewing Equipment

verge of retirement. The T-33 trainer is being phased out of the active Air Force in favor of the T-38. The last of the "T-Birds" is expected to be out of the training business by the end of fiscal year 1964. And, the very last 11 of the versatile, handy, little twin-engine C-45's have been ordered disposed of as surplus. The Navy still uses about 400 of them.

The new Air Force topcoat for optional wear with mess dress and formal uniforms is expected to be available the last of this month in base exchanges at \$50 to \$60 a coat.

Effective Jan. 1, students of the Air Force Extension Course Institute no longer will be able to retake examinations to make up lesson failures. The Air Force is working the courses into the normal training pattern for active duty airmen.

Ordnance people may argue that the new M-16 rifle cal. 5.56 mm is a better rifle than the new .223 undergoing tests but when the Marines start their own test in April of the .223 the two may become competitive.

Army personnel planners say that a Specialist promoted to a temporary noncommissioned officer rating will probably remain a Specialist in his permanent career grade. The rule is of a general nature and probably will not apply to all.

To answer the many teacher protests received by Defense from overseas teachers, the Pentagon announced new reorganization of the overseas dependent school system, primarily a unification of management of the 285-school system. Under a new approach there will be greater standardization for hiring and assignment of teachers. Some 150,000 military children attend these schools.

Consumer Price Index must reach 108.6 before the military retirees receive any increase in retired pay. Word here at this time is that the bets are not good for a 1964 raise or at best not until the 1964 CP has been tabulated later on in the year.

Medical officers are greatly concerned with the lung cancer and cigarette report, and will soon kick off an educational program on the detrimental effects of smoking directed at younger officers and enlisted men, and minor dependent children. There are no plans at this time to drop cigarettes from post exchanges and clubs.

The Pentagon is making "no comment" replies to questions about a reported controversy in Viet Nam between Ambassador Henry Lodge and Army Gen. Paul D. Harkins, but rumors here are strong that retired Marine Gen. David Shoup may relieve Lodge in February or March.

Capt. Wayne T. Frye has been selected to take part in specialized training with the Lake Washington Rowing Club in Seattle in quest of a trial for the U.S. Olympic rowing team.

In 1952 the captain won an Olympic gold medal in the eight oared shell.

Federal employees and military people contribute \$20 million annually to charity drives and the Government about \$5 million for "overhead" expenses of these drives. The Civil Service Commission is seeking to merge all charity drives into one annual fund raising effort but is meeting with resistance from the various "drive" groups. These groups feel that they would collect less money by the single drive, but the Civil Service Commission feels that "pressure" on employees and service personnel once a year is sufficient.

# Pirates Finally Win League Tilt at Home

By TOM CUSHMAN

Gazette Telegraph Sports Writer  
Sunday afternoon the St. Mary's Pirates accomplished something they hadn't done for the better part of a year. They won a conference basketball game in their own gymnasium.

The Bucs, one time irresistible force on their own planks,

hardly fashioned that image Sunday — but at least it was spreading confusion thru a step in the right direction. Dan Wright's Pirates had to throw off a first quarter deficit before pinning a 44-34 defeat on winless St. Joseph's, the DPL's cellar occupant.

Sunday's triumph thus marked a return to normalcy for St.

## Tony Lema Captures Crosby Golf Tourney

By DICK BARNES

Associated Press Sports Writer

PEBBLE BEACH, Calif. (AP) — Champagne Tony Lema won the Crosby Golf Tournament by conquering the weather and his own fears Sunday — the foes which substituted for opposing golfers.

Tony didn't have to beat the rest of the field because the golfers beat themselves in a bizarre final round which included Bob Rossburg's six-putt green and Bob Harrison's score of 100 in the blustery winds and rain which swept Pebble Beach golf course.

Tony's closing round was only a 76—four over par at the 6,747-yard seaside links. It looked brilliant next to the 88 posted by Al Balding, the lanky Canadian who began the day tied for the lead with Tony. And it handily beat the 82 of Jay Hebert and 79 of Bruce Devlin, the opponents who were two strokes behind after three rounds.

No one equalled par 72.

Soon after he started his final round, Tony had a seven-stroke lead. But the rain was falling almost sideways a near-gale and golf balls were plunking left and right into the ocean.

He conquered his own fears—ones that caused him to say, "I was scared all the way, but I knew when I went out to the first tee that if I shot a fair good score and didn't blow up, I had a good chance."

Once he conquered himself, Lema beat the weather by playing safe with his comfortable lead. He was most cautious at the treacherous par-three 17th hole, an ocean-fronting horror which he double-bogied Saturday — and on which Arnold Palmer took a nine.

# Powell Propels Past Pal for West Win

By BOB MYERS

Associated Press Sports Writer  
SAN DIEGO, Calif. (AP) — Art Powell's ability to get a couple of steps ahead of a life-long buddy propelled the West to a 27-24 victory over the East and a perfect record in three American Football League All-Star games.

Powell's climactic act came Sunday after the West had driven to the East two in the closing minutes, trailing only 24-20 after overcoming a 24-3 halftime deficit.

Even the Sunday's win was no runaway, the margin was somewhat spectacular, compared to events around the remainder of the league. In a drastic reversal of Parochial League form, no one else won by more than three points. Regis had that margin, in ascending to its familiar perch at the top of the standings by edging former co-leader, Holy Family.

St. Francis, Mullen, and Mt. Carmel all gained victories by a scant two points.

The reason for the Pirates' problems in their own gymnasium is really not too difficult to decipher. Unlike the St. Mary's teams of the past few seasons, this winter's edition is woefully lacking in outcourt shooting ability. Therefore the opposition has been combining

city. Including an East offside, the West had five tries to get the ball over. The East defense held.

Only 1:29 remained. The East, however, was unable to move and was forced to punt, and the West took over on the East 43.

Only 1:05 remained. Quarterback Cotton Davidson fired a short pass to Lance Alworth. Complete. Davidson fired a short one to Powell, his Oakland teammate. Complete.

Davidson finally missed one, then called Powell's play again — on a deep pattern this time.

Powell raced full speed into the left corner of the end zone, outdistancing defender Willie West of Buffalo, and hauled in the 24-yard aerial for the winning touchdown.

Only 43 seconds remained.

Despite the spectacular ending, both West Coach Sid Gillman of San Diego and East Coach Mike Holovak of Boston pointed to a 64-yard touchdown

run by San Diego's Keith Lincoln in the third quarter as the decisive play in the West's third victory in three All-Star games.

Only Jim Fraser's field goal had put them on the scoreboard until Lincoln's run.

The East had built a 24-3 half-time lead as Boston's Babe Parilli completed 12 of 16 passes for 142 yards and two touchdowns. One went 12 yards to Boston's Larry Garron and the other three to New York's Bill Mathis. Buffalo's Cookie Gil-

christ scored the other TD on a one-yard smash.

Lincoln, voted the outstanding back of the game, then got the West rolling. Tobin Rote of San Diego hit Charger teammate Alworth with a 51-yard pass that set up a five-yard touchdown run by Paul Lowe of San Diego.

Another Fraser field goal made it 24-20.

That put the spotlight on Powell.

## C-State Gets Fat On Tigers

By THE ASSOCIATED PRESS

A two-game weekend series at Gunnison probably will put Colorado State College at the top of the Rocky Mountain Conference basketball standings.

CSU and Adams State are deadlocked atop the standings with four victories and no defeats, but CSC meets Western State Friday and Saturday in League action while the Indians are idle in league play.

A-State has a non-league contest with Fort Lewis A&M at Alamosa Saturday.

Colorado State College had an easy weekend at Greeley, knocking winless Colorado College 92-69 Friday and taking an 82-64 victory Saturday.

Better free throw shooting turned the trick for Adams State Saturday against Colorado Mines. Both teams hit 15 field goals, but the A-Staters were victors 52-45. The Miners fell to A-State Friday 70-52.

The whistle got a good work-out before Regis won over Western State 91-73 in a non-conference game at Denver Saturday. There were 62 personal fouls.

# Manitou High School News

By JOY BORMANN

Lance Huffman and Sharon Whitt will host the exchange students from Salida. The exchange will take place the first week of February. Rocky Arnett and Jody Gayler will attend Salida for a week.

Florence High School has invited students from MHS to their junior-senior play. Any student wishing to order tickets must do so before Monday. The play will take place on Jan. 30.

The Student Council discussed fund raising projects at their meeting on Jan. 10. A committee consisting of Bobby Nakai, Lance Huffman, Julie Jones and D'Estia Harris was formed to find more information about a carnival and a raffle. Suggestions for fund raising projects were accepted from the student body also.

The PPL speech meet which will be held in Leadville at the end of February was discussed by the student council. Mrs. Cynthia Estes will sponsor three one-act plays. Before the one which will go to the speech meet is chosen, the student body and the public will be given a chance to see all three of the plays. The proceeds of the admissions will go to the student council.

The scholastic aptitude tests have been taken by interested Manitou seniors at Wesson High School and at Colorado College. The scores, which will be sent to the three colleges of the students choice, are expected back in January. Besides being used in determining placement and for admittance to out of state colleges, the scores are required by various scholarship donors.

A representative of Harvard University was in Colorado Springs Thursday to talk with junior and senior boys interested in applying there.

MHS has received uniform application forms for admission to colleges in Colorado.

## URGES ANNOUNCEMENT

WASHINGTON (UPI) — Rep. John F. Baldwin, R-Calif., believes that failure to stand firm in the Canal Zone will encourage further "threats of violence and blackmail" against the United States.

Baldwin said Friday he had written President Johnson to urge the Chief Executive to make a "clear-cut public announcement that the United States intends to stand firm in behalf of its treaty rights."

## Future Sit-ins To Be Foiled at Colorado Capital

DENVER (AP) — State Sen. Paul Wenke, R-Fort Collins, has opened a drive to forestall any future sit-in demonstrations at the Capitol.

Wenke is sponsoring a resolution calling upon the House and Senate judiciary committees to work out rules for use of the Capitol. The legislature would adopt the rules recommended, he says, and they would become law.

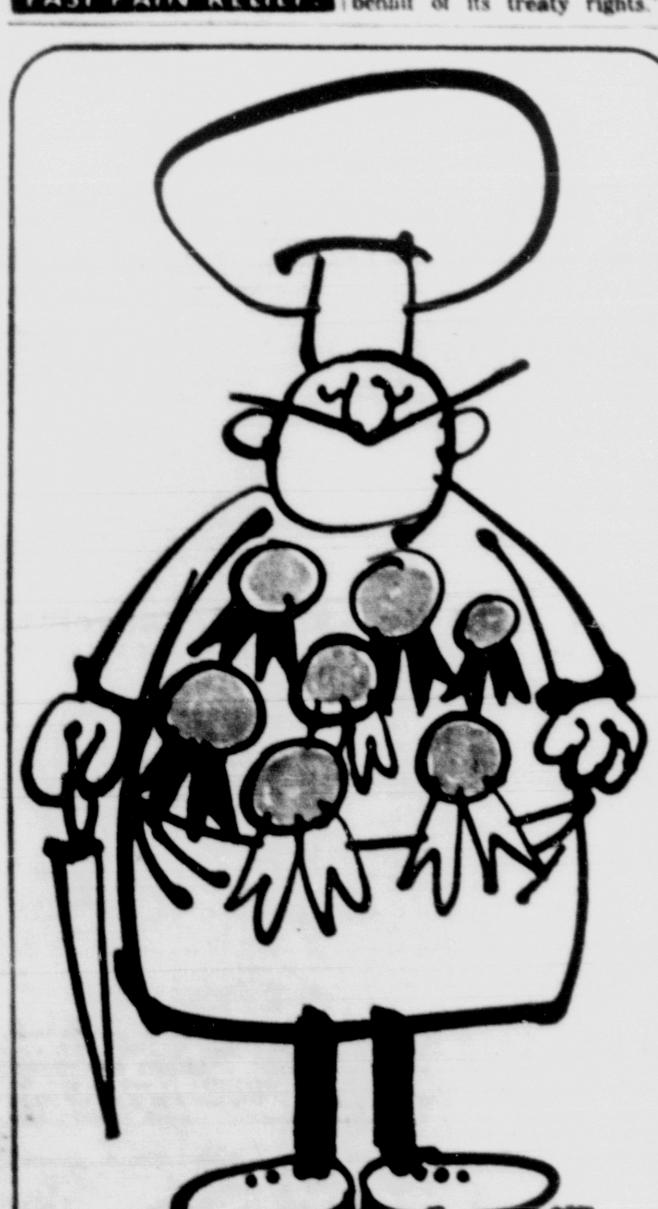

Wenke tossed his resolution into the Senate Friday at almost the same time members of the Denver chapter of the Congress of Racial Equality were ending their three-day sit-in at the office of Gov. John A. Love.

The demonstrators left during the noon hour after the House and Senate had adjourned for the weekend. This adjournment made it impossible for Gov. Love to place any further items before the lawmakers for consideration this year because the deadline was last midnight.

The demonstrators staged their vigil at the governor's office in an effort to get him to recommend strengthening of Colorado's Fair Housing Act. Love said at mid-morning that he would not do this.

Wenke's resolution says adoption of rules for operation of the capitol is "essential in protecting the rights to assemble" of the people. It obviously was intended, however, to prevent any picketing or sitdowns inside the building.

An aide of Gov. Love said that as soon as his decision was learned numerous calls began coming into his office.

COL. O.P. ANDERSON

## ARACOM Gets New Adjutant General

Col. O.P. Anderson has assumed his duties as adjutant general of the Army Air Defense Command at its Colorado Springs headquarters.

He comes here from Germany, where he was deputy adjutant general at headquarters of U.S. Army Europe.

Col. Anderson is a veteran of World War II. He served as inspector general with various units—including headquarters of the Sixth U.S. Army—in the southwest Pacific area and Japan.

The Pep Club held its annual dinner at Uncle Herb's Pancake house Wednesday. All members and pledges were invited and special guests were Mr. Larry Olsen, Mr. Allen Porter, Mr. W.W. Bundy, and Mr. John Konselman.

Mr. Konselman, a representative of Harvard University, was in Colorado Springs Thursday to talk with junior and senior boys interested in applying there.

MHS has received uniform application forms for admission to colleges in Colorado.

## Romney Warns Against Racial Issues in Race

By GREG R. NOKES  
SALT LAKE CITY (AP) — Michigan Gov. George Romney warned Friday night the Republican party will be renouncing its heritage if it tries to take advantage of racial strife in the 1964 elections.

The Republican party must not exploit racial or religious prejudices in order to gain a victory at the polls, he said.

"To do so would be to disavow the heritage of Abraham Lincoln, to destroy part of the heritage of America, and to renounce the spiritual heritage of the Judeo-Christian world," he added.

Romney addressed approximately 1,150 persons attending a \$50-a-plate Republican fund raising dinner. As he spoke, nearly 200 civil rights advocates demonstrated peacefully outside.

The Michigan governor shook hands with many of the pickets on his arrival at the banquet hall. He told one Negro demonstrator, "You're for civil rights, I'm for civil rights."

Songs carried by the demonstrators read, "What happened to the party of Lincoln" and "The South and Utah, no civil rights."

The demonstrators made clear their action was not against Romney, but the Utah Republican party for allegedly not working for civil rights legislation in the 1963 Legislature.

In a departure from his prepared text, Romney told the Utah Republicans they should follow the example of political parties in Michigan and "make civil rights a bi-partisan effort."

Among his other assignments, he has been deputy adjutant general of the Fifth U.S. Army, with headquarters in Chicago, and has served in the offices of the Deputy Chief of Staff for Personnel and the Deputy Chief of Staff for Logistics of the Department of the Army, Washington, D.C.

Col. Anderson and his wife are living at 710 S. Union Blvd. They have one son who is attending the University of Wisconsin.

Baldwin said Friday he had written President Johnson to urge the Chief Executive to make a "clear-cut public announcement that the United States intends to stand firm in behalf of its treaty rights."

Barry Can Count  
On Solid South,  
Assistant Says

By WALTER R. MEARS

KINSTON, N.C. (AP) — Sen. Barry Goldwater's Southern field general said here the campaigning conservative can count on an almost solid South in his quest for the Republican presidential nomination.

Goldwater, in the South for the first time as a declared candidate, meets North Carolina Republican leaders today at a \$100-and-up breakfast in Fayetteville. About 125 are expected to be on hand for that private meeting.

Friday night, it was a \$150-a-plate dinner at Kinston. Goldwater told some 1,200 people at a Junior Chamber of Commerce banquet he is tired of critics who judge Congress "not on the quality of what we do but on the quantity."

John Grenier, Southern regional director of the Goldwater campaign, said the South will be squarely in the Arizona senator's column at the Republican National Convention next July.

"We'll take 278 out of 279 delegates," Grenier said in an interview.

The holdout?

"Winthrop Rockefeller in Arkansas. I assume he'll vote for his brother."

New York Gov. Nelson A. Rockefeller is the only other avowed candidate for the GOP nomination.

Grenier, who is Alabama's Republican chairman, said Rep. John W. Jencks of the Fair Housing Act, Love said at mid-morning that he would not do this.

Wenke's resolution says adoption of rules for operation of the capitol is "essential in protecting the rights to assemble" of the people. It obviously was intended, however, to prevent any picketing or sitdowns inside the building.

Grenier insisted Goldwater's Southern base is solid despite the succession of Lyndon B. Johnson, a Texan, to the presidency.

He said North Carolina and Virginia are the only two whose GOP chairmen have not endorsed the Arizona senator.

Grenier insisted Goldwater's Southern base is solid despite the succession of Lyndon B. Johnson, a Texan, to the presidency.

As head of Gov. Love said that as soon as his decision was learned numerous calls began coming into his office.

REENLISTMENT—S.Sgt. Charles W. Grover, Company C, 2d Battalion, 61st Infantry, takes the reenlistment oath from 1st Lt. Ward M. Chewing, his Commanding Officer. Grover won the President's 100 rifle match at Camp Perry last August, outstanding 3300 of the nation's top marksmen and set a new record in the match.

**Service Industry Now State's 4th Largest Employer**

The service industry in Colorado has become the fourth largest nonagricultural employer in the state, according to the University of Colorado Bureau of Business Research.

Moreover, the industry is likely to be the fastest growing employer the next decade, the bureau reports in the current issue of the Colorado Business Review.

Service industry is defined as "providing goods and services for people who are employed in other services and occupations."

This includes repair businesses, hotels and motels, laundries and amusement, among others.

In Colorado, only trade, government and manufacturing employ more people.

The CU report states that 85,500 people were employed in the service industry in 1962 which is 37,200 more than in 1950. This is an increase of 77 per cent, according to figures from the U. S. Department of Labor and the U. S. Bureau of the Census and Labor Statistics.

A breakdown of figures for the years 1958 and 1962 shows that the number of jobs in the miscellaneous business and repair category increased 41 per cent, from 8,700 to 12,300; medical and health category was up 40 per cent, 16,500 to 23,100; and hotels, motels increased 37 per cent, from 5,900 to 8,100.

According to the report, the labor department expects the service industry to grow faster than any other labor division, because "as per capita income continues to rise, consumers are expected to spend a larger and larger share of their income on services of many kinds."

Colorado's per capita income rose 64 per cent between 1950 and 1962, from \$1,446 to \$2,370.
